

Anvita Beohar

anvitabeohar04@gmail.com | +91 7447526499 | [linkedin](#) | [Portfolio](#)

UX designer with hands-on experience in VR/XR and AI-powered enterprise tools: shipped a Unity VR experience on Meta Quest 3, ran a 29-person VR user study (MSc, Distinction), and designed for complex workflows at IBM. Skilled in Figma, Unity (XR Toolkit), prototyping and research. Relocating to Bengaluru.

Professional Experience

IBM – UX Designer (full-time, graduate-level)

Feb 2026 - current

- Designing UX for IBM Maximo, an EAM platform in IBM's ALM portfolio, to simplify complex enterprise workflows.
- Authored the SME interview guide and led 17+ interviews with product, sales and renewals teams across EMEA and North America; synthesized findings into an adoption-barrier journey map that became the basis of a five-stage maturity model.
- Used AI to accelerate research synthesis, turning insights into design directions for sales enablement content and an internal knowledge base.

Blum Pvt. Ltd. - Graphic Design Executive

June 2023 - July 2024

- Led user research and competitive analysis to inform strategic design decisions.
- Created **140+** social media assets and exhibition materials across digital platforms.
- Streamlined in-store branding process, cutting lead times **20%** for **30+** store launches.
- Earned "**Best Debut Performer**" recognition for exceptional impact.

Freelance Graphic & UX Designer

May 2021 - April 2023

- Designed and executed a consistent Instagram content system for Fruik over **4–5 months**, growing their social presence from a few hundred to **1,000+** followers.
- Created interactive website wireframes and prototypes for startups like Nothuman.
- Delivered motion design and branding assets for cultural events and organizations.

Ittisa Marketing Agency and Qubag Internships

2020 - 2021

- **Design & marketing internships:** 140+ social, packaging and brand assets

Education

Trinity College Dublin - MSc. Interactive Digital Media

Sep 2024 - Sep 2025

Thesis: *The Future of VR Esports: Building VR-Exclusive Games and What Makes Them Olympic-Ready.*

Awarded with distinction. Focused on user-centered design, interactive storytelling, and immersive technologies, with expertise in UI/UX design and front-end development.

Narsee Monjee Institute of Management Studies MPSTME (BTech+MBA)

July 2016 - May 2021

BTech specialization in Computer Science Engineering and MBA major in Marketing Management, minor in Strategy and Innovation Management.
